

NOTICE OF DATA PRIVACY EVENT

Optimal Physical Therapy LLC (“OPT”) is providing notice of a data security incident that may have resulted in unauthorized access to personal information. This notice is intended to provide details about the incident, steps we are taking in response, and resources available to help protect against the potential misuse of personal information.

What Happened? On June 29, 2023, OPT detected suspicious activity on its network due to a business email compromise of a single employee (“Incident”). Upon discovering the Incident, OPT promptly engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the extent and root cause of the Incident. The investigation was completed in November 2023. Unfortunately, the investigation was inconclusive due to the lack of available logs and forensics artifacts. **In other words, the forensics investigation did not indicate one way or another whether there was in fact any unauthorized access to information contained in the user account.**

Nonetheless, out of an abundance of caution, OPT decided to proceed with an analysis of the contents of the subject email account for any potential sensitive personal information (“PII”) or protected health information (“PHI”) to cover the mere possibility of unauthorized access of such data. OPT engaged a third party vendor to review the data in the compromised account. However, there were some difficulties in uploading this data. The multi-step electronic and manual review of the contents of the email account was completed on May 17, 2024. On July 11, 2024, OPT finalized the list of individuals whose PII/PHI was contained in the email account.

What Information Was Involved? Although OPT is not aware of any misuse of any personal information for fraud or identity theft as a result of this incident, OPT is notifying individuals out of an abundance of caution and for purposes of full transparency. Based on the investigation, the data may include one or more of following categories of personal information: social security number, date of birth, medical information, and/or health information. Once again, however, OPT does not have any evidence that any PII/PHI was in fact compromised or misused. , a formal notice letter will be sent to those who have had their sensitive information impacted, and the letter will identify the types of information involved.

What We Are Doing? OPT is committed to ensuring the privacy and security of all personal information in our care. Since the discovery of the Incident, OPT has taken and will continue to take steps to mitigate the risk of future harm. Specifically, OPT has engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the incident. Also, additional security practices have been implemented that include retraining employees and updating policies.

In addition, OPT is providing complimentary credit monitoring and identity theft protection services to all potentially impacted individuals. Notification letters will be sent to those persons with instructions on how to enroll in the credit monitoring and identify theft protection services. OPT strongly encourages everyone who receives a letter to register for these complimentary services.

In keeping with best practices, OPT reminds everyone to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious or unauthorized activity. Steps You Can Take to Help Protect Your Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.
